# Career orientation in Italy

- There are 4 important moments for the career orientation:
  - 1) 13/14 years: choice of the High School
  - 2) 18 years: choice of the University
  - 3) 24 years: to search a job
  - 4) During the working life

# HIGH SCHOOL

Students aged 13/14 have to decide in which kind of school to go on.  
To choose the “best school” (for himself / herself) is important:

- To visit different high schools
- To speak with teachers
- To speak with old students

# UNIVERSITY

When students at the age of 18/19 have finished the high school, they must decide which university will attend.

For this choice is important:

- To visit the University
- To speak with teacher
- To speak with old students
- To attend an “open day”

# FINDING A JOB

There are various methods to find a job first time:

- To participate to a job meeting
- To enrole himself/herself and to take frequently information in a job center
- To contact a private employment agency (especially for temporary jobs)
- To participate to a public contest (for a job as a civil servant)

# FINDING A JOB

There are some different job contracts:

- Traineeships
- Internation traineeships (Leonardo mobility project)
- Apprenticeship
- Permanent contract

# CARRIER CHECK UP

If adults in the labour market lose the job or want to change it, they have the following possibility:

- Partecipate a job meeting
- Public job center
- Temporary employment agency (Private)
- Public competition
- Personal research society
- Attend a training course and acquire some skills
